Past, Present and Future
A Note from the President

More than 50 years ago, the Community Foundation was created to be a lasting resource, dedicated to making this a thriving region and working to improve the quality of life for all who live here.

Today, the Foundation continues to respond to the changing needs of our community. We are building on and refining the ways that the Foundation carries forward the founding vision.

We are dedicated to making sure that our region is a place that works for everyone. We aim to have a nuanced understanding of the multiple communities within our region, and strive to advance solutions that ensure all of our neighbors have a chance to thrive.

Our success depends on our relationships with community members, and we are constantly seeking to listen, learn and connect. We can only serve our region by being engaged in deep, authentic partnerships with all of our communities. There isn’t a one-size-fits-all approach.

All community foundations need to adjust and respond to the changing needs of the people they serve. Here, we are fortunate to have a long history of effective philanthropy and a founding vision that remains our guiding light. As we honor that history, we are redoubling our efforts to be accessible and transparent, and to partner, learn and assess — ensuring that we are supporting our region in ways that are relevant and impactful.

There are many who are with us on this journey, whether they are new to the Foundation or have been loyal supporters for decades. In the following pages, you will see our Governing Board members, the Community Foundation team, and our contributors. These are the people who are continuing the work that began so many years ago, moving us forward as we remain grounded in our founding mission and deeply grateful to those who came before us.
